

On June 11, 2013 (Tuesday) ago, Selangor Water Management Authority in collaboration with Konsortium ABASS and the Selangor Department of Environment organized a Dialogue with Stakeholders Program Area LPA Sg

.
Semenyih

.
The program aims to highlight the responsibility of stakeholders in the catchment River Basin

.
Semenyih to the participants. The program can also reveal the importance of legal information that must be observed

.
In addition, it is also to raise awareness for the work and is responsible for the conservation and preservation of

water resources
in the State of
Selangor

.
